Ok. This is what we got.

We have no data from the 32 street bridge after Aug 6 so we did not add that graph. I assume it wasn't sampled.

The dotted line is a software issue, sorry.

The Durango lab hasn't reported Aug 7 results. They say tomorrow. Gold star to Dan Wall for pulling all the others when he did.

We have no Aug 9 yet results for Bakers Bridge and CC48.

Remember you can pull a reference map from Joan's first data update document.

Anything else tonight. I'd like to send my crew to sleep. They got the validation ball rolling....

M
